Attachment: Clarification Table

<b>CLARIFICATION TABLE</b>					
<b>No. of Question</b>	<b>Question</b>	<b>Reference in the Bidding Document</b>	<b>No. of Answer</b>	<b>Answer</b>	<b>Clarification or Amendment</b>
1	The RFP contains certification requirements for ISO 9001, ISO/IEC 27001 and ISO/IEC 20000. In case of a Joint Venture, should each individual JV member possess the required Quality Management, Information Security and Service Management certificates, or is it sufficient for the Joint Venture, collectively, to meet these certification requirements? The RFP states that each JV member shall hold the required certificates, while the qualification table may be interpreted as allowing JV members combined to demonstrate compliance. Please clarify which interpretation is correct.	Section II - Proposal Data Sheet, ITP 11.2(j), (k), (l); Section III - Evaluation and Qualification Criteria, Sub-Factor 1.5.1 - Quality and Service Management Certifications.	1	<p>The Purchaser clarifies that the RFP Document will be amended with respect to the certification requirement applicable to Joint Ventures.</p> <p>In case of a Joint Venture, the Lead Member of the Joint Venture shall hold all three required certificates: ISO 9001, ISO/IEC 27001 and ISO/IEC 20000, or equivalent internationally recognized certificates issued by an accredited certification body. Each individual JV member is not required to hold all three certificates. Compliance by combining certificates held by different JV members shall not be sufficient unless the Lead Member holds all three required certificates.</p> <p>For this purpose, the Lead Member means the JV member designated in the Joint Venture Agreement or Letter of Intent as the lead member / representative authorized to act for and on behalf of the JV.</p> <p>Therefore, the RFP Document shall be amended.</p>	Amendment
